ERDS4-01WN
Electric Standing Desk

The ERDS4-01WN electric standing desk is built with premium 3.1"MDF desktop for superior durability and a weight capacity of 154 lbs. Effortlessly adjust the height from 27.6"to 46.5"using the integrated smart controller, which also features 3 USB ports (a total power of 28W) to keep your devices powered. Transition smoothly between sitting and standing to enhance comfort and productivity. This sit or stand desk also includes an under-desk keyboard and storage solution for ergonomic typing or to keep essentials neatly out of sight. With a dedicated cable management tray and built-in cable hole, you can easily organize cords and maintain a clean, clutter-free workspace.

Features

- The premium 3.1"one-piece solid MDF desktop supports up to 154 lbs without any wobble.
- Safely transition between sitting and standing with intelligent anti-collision lift technology.
- Stay powered with built-in 28W charging ports (2 USB-A + 1 USB-C) on the smart embedded controller.
- Best-in-class cable management conceals and routes cables for a premium finished look.
- Built-in storage shelf allows convenient storage and access to your keyboard or a variety of smaller accessories.
