Important
Safety
Information

⚠ CAUTION – Risk of Fire and Shock – Only intended for use on 15 ampere branch circuits.

⚠ CAUTION – Risk of Fire – Do Not Install Power Supply Cord Within the Wall Cavity.

⚠ WARNING – Risk of Fire and Shock. Do not connect this box to any other circuits or outlets.

⚠ CAUTION: Avoid the risk of personal injury or property damage!

- Grommet holes are for low voltage cabling only (HDMI, audio, coax or data cabling), DO NOT run additional power cords in the wall cavity.

- This product is designed for installation on drywall only.

- This product contains small parts that may pose a choking hazard.

- Do not use this product for any purpose that is NOT explicitly specified in this manual. We are not liable for damage or injury caused by incorrect assembly, improper mounting, or inappropriate use.

- Before starting assembly, verify that all parts are included and undamaged. Do not use damaged or defective parts. If you require replacement parts, please call technical support or email customer service.

- 125V / 15A

Supplied Parts and Hardware for Step 1

Driver Bit

01 x 1

3" (76mm)

Hole Saw

02 x 1

STEP 1 Assemble the Hole Saw

Supplied Parts and Hardware for Step 2

Drilling Template

03 x 2

Dust Bag

04 x 2

STEP 2 Make the Holes

2-1 Find Studs and Locate Positions (Between Studs)

2-2 Trace the Templates at the Positions

2-3 Drill the Holes

Supplied Parts and Hardware for Step 3 & 4

Upper Box
05 x 1

Lower Box
06 x 1

Box Cover
07 x 2

70" (1800mm)
Power Supply Cord
08 x 1

STEP 3 Mount the Boxes in the Wall

3-1 Remove the Back Cover

⚠ Note: Save the bolts [S] for the next step.

3-3 Secure the Boxes

3-4 Install the Box Covers

STEP 4 Connect Power Cable

Informations
de sécurité
importantes

⚠ ATTENTION – Risque de Feu et de Choc – Réservé uniquement pour l'utilisation sur des circuits dérivés de 15 ampères.

⚠ ATTENTION – Risque de Feu – Ne pas Installer Cordon d'Alimentation électrique dans la Cavité du Mur.

⚠ AVERTISSEMENT – Risque de Feu et d'Électrocution. Ne connectez pas cette boîte à d'autres circuits ou prises de courant.

⚠ ATTENTION : Éviter le risque de blessure personnelle ou de dommages aux biens !

- Ne exécutez pas des cordons d'alimentation supplémentaires dans la cavité du mur, les trous de l'oeillet sont uniquement pour les câbles basse tension (HDMI, audio, coax ou câbles de données).
- Ce produit est de conception pour l'installation sur le placoplâtre uniquement.
- Ce produit contient des petites parties qui peuvent poser un risque d'étouffement.
- N'utilisez pas ce produit à des fins qui ne sont pas explicitement spécifiées dans ce manuel d'utilisation. Nous ne sommes pas responsables des dommages ou des blessures causés par un assemblage incorrect, un support inapproprié, ou une utilisation inappropriée.
- Avant de commencer l'assemblage, vérifiez que toutes les parties sont incluses et sans dommages. Ne pas utiliser de partie avec dommages ou défauts. Si nécessaire, vous avez besoin de parties de remplacement, veuillez appeler le support technique ou envoyer un courriel au service client.
- 125V / 15A

Pièces et matériel fournis pour Étape 1

Pointe de tournevis

01 x 1

3" (76mm)

Trou Saw

02 x 1

ÉTAPE 1 Assemblage le Trou Saw

Pièces et matériel fournis pour Étape 2

Template de Perceuse

03 x 2

Sac pour Dépoussiérer

04 x 2

ÉTAPE 2 Faire les Trous

2-1 Trouver les Studs et Localiser les Positions (Entre les Studs)

2-2 Tracez les Modèles aux Positions

2-3 Perceuse les Trous

Pièces et matériel fournis pour Étape 3 & 4

Haut boîte
05 x 1

Lower Boîte
06 x 1

Boîte Housse
07 x 2

08 x 1

ÉTAPE 3 Support the Boîtes in the Mur

3-1 Enlever le Couvercle arrière

⚠ Remarque: Enregistrez les boulons [S] pour la prochaine marche-pied.

3-2 Route the Câbles and Insérer the Boîtes

3-3 Sécuriser les Boîtes

3-4 Installation des Housses à Boîte

ÉTAPE 4 Connectez le câble d'alimentation
